

I have listened solely to KLOVE 90.7 FM over the last 4 years or so. It is the only Christian station in my area that plays contemporary Christian music. It sends out a positive, encouraging message to all who listen. It is a great alternative to many other stations in town that play rock, rap and other types of music. We have all the other kinds of stations in town, so if KLOVE was replaced by an LPFM station, most likely it would provide music or programming that we already have here in Casper. KLOVE is a unswaying voice in Casper that lifts up and encourages all who listen. I think that it's a priceless asset to a community like Casper and would be a huge loss if it was forced off the air in lieu of a LPFM station. Please carefully consider this. God Bless!
